

# Ampetronic DLS

## Induction Loop System

### Enjoy quality sound together

If you or a member of your family is hard of hearing, then the DLS™ is just right for you. It provides excellent quality and clarity of sound normally associated with professional loop systems, direct to your hearing aid or receiver.

With 4 separate inputs, you have the flexibility to enjoy any sound source with the rest of your family at a volume that is comfortable for everyone

Ideal for use anywhere in the home or office

## How the DLS Loop System can help you

**Independence** - Be in control of sounds you want to hear without disturbing others.

**Understand every word** - Providing professional audio quality sound, the clarity is superb for maximum intelligibility.

**Quality of Life** - Concentration is improved, tiredness and stress is reduced and listening is more enjoyable.

**Safety** - A priority alert feature ensures that any warning signal (connected to this input) overrides the programme you are listening to.

**Versatility** - 4 independent inputs and a range of accessories means that you can connect the Leon DLS™ to any sound source in the home or office. You also have the flexibility to cover an area as small as a single chair to a room 30m<sup>2</sup>

**Peace of mind** - The DLS is backed by a 2 year manufacturers warranty. And is designed and manufactured to meet all relevant international safety and electrical standards.

**Easy Installation** - Supplied with easy to follow instructions, and all the accessories you need to get you started, the DLS is simple to install.

### Features

**4 independent inputs** - Connect all your sound sources to the one system such as a television, Hi-Fi, i-pod, computer, alarm system or microphone.

**Simple controls** - Once the system is set up there should be no need to make any further adjustments, (You can listen at a volume that suits you without disturbing the rest of the family) but just in case you want to, there is a volume and a tone control on the front panel.

**Priority (VOX) input** - Keep safe and never miss a caller. When a signal is present on this input, all other inputs are turned down so you will not miss it.

**Headphone output** - Primarily used in setting up the system and problem solving, the headphone output can also be used by those without hearing aids or loop receivers.

**Starter kit** - The DLS is supplied with all you need to get started - loop cable, cable clips, microphone, phono leads and easy to follow instructions.

### Optional Accessories

**Additional microphones and cables** - Depending on just how you want to use your DLS, you may want an extra microphone or a different style eg tie-clip, desk top or boundary mic, or additional cables to connect other equipment.

**Telephone adapter** - For connection between the wall outlet and telephone, or between handset and base. Allows you to use any telephone with confidence. Connected via the priority input, you will never miss a call. Full electrical isolation to international safety standards.
