

Connect the line Level Audio Input to one ILD1000G as master amplifier. Set input control for this unit only.

Set DRIVE control for equal output from all ILD1000Gs.

The amplifiers are linked by a twin combiner unit (ILC4/2+2). The two outputs of this unit drive the two arrays.

Ensure good ventilation in the cabinet or rack.

| Connector | Label |
|-----------|----------|
| 1 | Output A |
| 2 | Input A |
| 3 | Input A |
| 4 | Output B |
| 5 | Input B |
| 6 | Input B |
